

TAF and Stockassessment.org

Best of both worlds

Science for sustainable seas

TAF

- ▶ document where data came from and how they were calculated
- ▶ submit results to ICES database

Stockassessment.org

- ▶ SAM and SPiCT features:
check dimensions, compare runs, retro, default plots, HTML tables, build model
- ▶ user support

General recommendation

- ▶ Continue to run SAM and SPiCT models on Stockassessment.org
- ▶ Add [data.R](#) script on TAF to document where data came from and how they were calculated
